The whole day will be spent in this amazing world known destination. After the breakfast proceed for game viewing drive along the Sogore River Circuit, which loops into the plains south of the Seronera River, and which is good for possible Lion, Thomson gazelle, topi, ostrich and cheetah sightings. The Visitor Center close to the Serengeti Seronera Lodge and public campsites is well worth a visit after the morning's game drive. This nicely designed center offers some interesting wildlife displays as well as a gift shop selling information leaflets and maps of the area. The center also has a shop where cold drinks and snacks can be purchased, as well as a picnic area and information trail up and around a nearby kopje. We will enjoy a relaxed picnic lunch at the center in the shade of the giant acacia trees. In the afternoon, we will follow the Kopjes Circuit, which goes anti-clockwise around the Masai Kopjes, which usually attract a number of lion and some formidably large cobras. Kopjes are weathered granite outcrops, scattered around the plains, most of which are miniature ecosystems, providing shade and drinking water in pools left in the rock after the rains. This makes the kopjes particularly good for spotting wildlife in the dry seasons – including lions, which like to lie in wait for animals coming to drink! Dinner and overnight in the Seronera area, as per the standard and type of accommodation option requested.

Both the river and the swamps act like a magnet for wild animals, during Tanzania's dry season. The Tarangire National Park is reputed to contain some of the largest elephant herds in Africa. This African national park is also home to three rare species of animals - the Greater Kudu, the Fringed-eared Oryx, as well as a few Ashy Starlings.
